

Name: _____

Date: _____

ENVIRONMENT

Solve the following problems. Write your answer on the line.

Score: _____ / 20

Grade 3 | EVS | Sheet 3

1) The air around us is called the _____	2) Deforestation means cutting down _____	3) Planting trees is called ____.	4) Pollution of air is called ____.
5) Pollution of water is called _____	6) The 3 Rs of environment: Reduce, Reuse, _____	7) Ozone layer protects us from _____ rays.	8) Global warming is caused by ____ gas.
9) CO ₂ , methane are examples of _____	10) Biodegradable waste can be broken down by _____	11) Non-biodegradable waste does not _____	12) Plastic is a non-biodegradable material.
13) Composting converts waste into _____	14) Deforestation causes soil _____	15) Wild animals need protection _____	16) Rainforest is found in ____ regions.
17) Fossil fuels are coal, petroleum, _____	18) Solar energy comes from the _____	19) Wind energy uses ____ to generate _____	20) Rainwater harvesting conserves _____

Name: _____

Date: _____

ANSWER KEY

Environment -- Solutions

Grade 3 | EVS | Sheet 3

1) The air around us is called the _____ atmosphere	2) Deforestation means cutting down _____ forests/trees	3) Planting trees is called _____. afforestation	4) Pollution of air is called _____. air pollution
5) Pollution of water is called _____. water pollution	6) The 3 Rs of environment: Reduce, Reuse, _____ Recycle	7) _____ protects us from _____ rays. UV/ultraviolet	8) Global warming is caused by _____ gases. greenhouse
9) CO ₂ , methane are examples of _____ gases. greenhouse	10) Biodegradable waste can be broken down by _____. microorganisms	11) Non-biodegradable waste does not break down _____. easily/naturally	12) _____ is a break down material. non-biodegradable
13) Composting converts waste into _____. manure/fertilizer	14) Deforestation causes soil _____. erosion	15) Wild animals need protection in _____. sanctuaries/national parks	16) Rainforest is found in _____ regions. tropical
17) Fossil fuels are coal, petroleum and _____. natural gas	18) _____ solar energy comes from the _____. sun	19) Wind energy uses _____ to generate power. wind turbines	20) Rainwater harvesting conserves _____. water
