

Name: _____

Date: _____

FORCE AND MOTION

Solve the following problems. Write your answer on the line.

Score: _____ / 20

Grade 5 | Science | Sheet 3

1) Force can change the ____ of ____.	2) SI unit of force is ____.	3) Gravity pulls objects ____.	4) Friction opposes ____.
_____	_____	_____	_____
5) Friction creates ____.	6) A smooth surface has ____ friction.	7) Speed = distance / ____.	8) Velocity includes speed and ____.
_____	_____	_____	_____
9) Acceleration = change in velocity / ____.	10) Newton's 1st Law is the law of ____.	11) Newton's 2nd Law: $F =$ ____.	12) Newton's 3rd Law: every action has ____.
_____	_____	_____	_____
13) Weight = mass x ____.	14) Gravitational force on moon is ____ of Earth's.	15) SI unit of mass is ____.	16) SI unit of weight is ____.
_____	_____	_____	_____
17) Pressure = force / ____.	18) Buoyancy is the ____ force on an object in a fluid.	19) Archimedes' principle relates ____.	20) A body floats if its density is less than ____.
_____	_____	_____	_____

Name: _____

Date: _____

ANSWER KEY

Force and Motion -- Solutions

Grade 5 | Science | Sheet 3

1) Force can change the ____ of an object. shape/speed/direction	2) SI unit of force is ____. Newton	3) Gravity pulls objects ____. downward	4) Friction opposes ____. motion
5) Friction creates ____. heat	6) A smooth surface has ____ friction. less	7) Speed = distance / ____. time	8) Velocity includes speed and ____. direction
9) Acceleration = change in velocity / ____. time	10) Newton's 1st Law is the law of ____. inertia	11) Newton's 2nd Law: $F =$ ____. ma	12) Newton's 3rd Law: every action has a ____. reaction
13) Weight = mass x ____. gravity	14) Gravitational force on moon is ____ of Earth's. 1/6th	15) SI unit of mass is ____. kg	16) SI unit of weight is ____. Newton
17) Pressure = force / ____. area	18) Buoyancy is the ____ force on an object. upward	19) Archimedes' principle relates ____. buoyancy	20) A body floats if its density is less than ____. water/fluid
