

Name: _____

Date: _____

LIGHT

Solve the following problems. Write your answer on the line.

Score: _____ / 20

Grade 6 | Science | Sheet 4

1) Light travels in ____ lines. _____	2) Speed of light is ____ m/s (approx). _____	3) Reflection follows the law of ____. _____	4) Angle of incidence = angle of ____. _____
5) Refraction is bending of light. _____	6) A prism splits light into ____. _____	7) The colors of the visible spectrum are ____. _____	8) A convex lens ____ (brings together). _____
9) Concave lens diverges (spreads apart). _____	10) A plane mirror reflects ____. _____	11) Plane mirror forms a ____ image. _____	12) Virtual image cannot be formed on ____. _____
13) Opaque objects do not allow light to pass through. _____	14) Transparent objects allow light to pass through. _____	15) Translucent objects allow some light to pass through. _____	16) Shadows are formed when light is blocked. _____
17) Total internal reflection occurs when light travels from a denser medium to a rarer medium at an angle greater than the critical angle. _____	18) Optical fibers use ____ to transmit light. _____	19) Human eye has a ____ lens. _____	20) Retina converts light into electrical signals. _____

Name: _____

Date: _____

ANSWER KEY

Light -- Solutions

Grade 6 | Science | Sheet 4

1) Light travels in ____ lines. straight	2) Speed of light is ____ m/s (approx) 300,000,000 / 3×10^8	3) Reflection follows the law of ____ reflection	4) Angle of incidence = angle of ____. reflection
5) Refraction is bending of light when it passes from one ____ medium	6) A prism splits light into ____. spectrum/rainbow colors	7) The colors of the visible spectrum are ____. Violet Indigo Blue Green Yellow	8) A convex lens ____ (brings together) light. converges
9) Concave lens diverges (spreads out) light. light	10) A ____ mirror reflects ____. light	11) Plane mirror forms a ____ image. virtual	12) Virtual image cannot be formed on ____. screen
13) Opaque objects do not allow light to ____. pass through	14) Transparent objects allow light to ____. pass through	15) Translucent objects allow ____ light to pass through. partial	16) Shadows are formed when light is ____ by an object. blocked
17) Total internal reflection occurs when light travels from a ____ medium to a less dense medium at an angle greater than the ____. critical angle	18) ____ occurs when light is completely reflected back into the same medium. total internal reflection	19) Human eye has a ____ lens. convex	20) Retina converts light into ____. nerve signals
