

Name: _____ Class/Sec: _____ Roll No: _____ Date: _____

FORCE AND MOTION

Solve the following problems. Write your answer on the line.

Score: _____ / 20 Sheet 2 of 4

1) Gravitational force on moon is ____ of Earth's. _____	2) SI unit of mass is ____. _____
3) Buoyancy is the ____ force on an object in fluid. _____	4) SI unit of energy is ____. _____
5) A smooth surface has ____ friction. _____	6) Velocity includes speed and ____. _____
7) Terminal velocity is reached when drag equals ____. _____	8) Non-uniform motion has changing ____. _____
9) Kinetic energy is energy of ____. _____	10) A spring balance measures ____. _____
11) SI unit of force is ____. _____	12) A body floats if its density is less than ____. _____
13) Newton's 2nd Law: $F =$ ____. _____	14) Magnetic force is a ____ force. _____
15) Weight = mass x ____. _____	16) Friction can be reduced by ____. _____
17) Work = force x ____. _____	18) Momentum = mass x ____. _____
19) Electrostatic force is a ____ force. _____	20) Pressure = force / ____. _____
