

Name: _____ Class/Sec: _____ Roll No: _____ Date: _____

MAGNETS

Solve the following problems. Write your answer on the line.

Score: _____ / 20 Sheet 2 of 4

1) SI unit of power is ____.	2) Dry cell produces ____.
3) Insulators have ____ resistance.	4) Static electricity involves ____ on surfaces.
5) SI unit of voltage is ____.	6) Lightning conductor protects buildings from ____.
7) Charged objects attract ____.	8) Resistance of conductors increases with ____.
9) Electric current is flow of ____.	10) In series circuit, current is ____ everywhere.
11) Short circuit has ____ resistance path.	12) AC stands for ____ current.
13) Electromagnet is made using current and ____.	14) Electric motor converts electrical to ____ energy.
15) Energy = power x ____.	16) SI unit of resistance is ____.
17) kWh is the unit of electrical ____.	18) SI unit of current is ____.
19) A fuse protects against ____.	20) Good conductors have ____ resistance.
