

Name: _____ Class/Sec: _____ Roll No: _____ Date: _____

MOTION

Solve the following problems. Write your answer on the line.

Score: _____ / 20 Sheet 4 of 4

1) Gravitational force on moon is ____ of Earth's. _____	2) Conservation of energy: energy cannot be ____ or des... _____
3) Buoyancy is the ____ force on an object in fluid. _____	4) Potential energy is energy of ____. _____
5) Newton's 1st Law is the law of ____. _____	6) Power = work / ____. _____
7) Momentum = mass x ____. _____	8) A body floats if its density is less than ____. _____
9) A beam balance measures ____. _____	10) Impulse = force x ____. _____
11) SI unit of weight is ____. _____	12) A spring balance measures ____. _____
13) Magnetic force is a ____ force. _____	14) Rolling friction is ____ than sliding friction. _____
15) Work = force x ____. _____	16) Friction opposes ____. _____
17) Pressure = force / ____. _____	18) Newton's 2nd Law: $F =$ ____. _____
19) Distance-time graph slope = ____. _____	20) Terminal velocity is reached when drag equals ____. _____
