

Name: _____ Class/Sec: _____ Roll No: _____ Date: _____

MOTION AND TIME

Solve the following problems. Write your answer on the line.

Score: _____ / 20 Sheet 3 of 4

1) Rolling friction is ____ than sliding friction. _____	2) Friction creates ____. _____
3) Drag is friction in ____. _____	4) Gravity pulls objects ____. _____
5) SI unit of mass is ____. _____	6) Momentum = mass x ____. _____
7) Power = work / ____. _____	8) SI unit of energy is ____. _____
9) Potential energy is energy of ____. _____	10) Non-uniform motion has changing ____. _____
11) Friction can be reduced by ____. _____	12) $KE = 0.5 \times \text{mass} \times$ ____. _____
13) Magnetic force is a ____ force. _____	14) Acceleration = change in velocity / ____. _____
15) Speed = distance / ____. _____	16) Archimedes' principle relates to ____. _____
17) SI unit of weight is ____. _____	18) Impulse = force x ____. _____
19) Work = force x ____. _____	20) Electrostatic force is a ____ force. _____
